

SOC Analyst Simulation

Enterprise Incident Response Worksheet (Grades 9-12)

Name: _____ Date: _____
Role: _____ Team: _____

Mission Briefing

Organization: TechCorp Industries (2,500 employees, hybrid cloud)

Your Role: SOC Team, 7AM-3PM shift

Alert: SentinelAI has flagged CRITICAL alerts requiring human analysis and authorization.

Phase 1: Initial Triage (10 minutes)

Evidence Package Review

My assigned evidence package: [] A: Network [] B: Auth [] C: Endpoint [] D: Threat Intel [] E: Business

Key indicators I identified:

Indicator	Significance	MITRE ATT&CK Mapping

Initial assessment:

SentinelAI Consultation

Query submitted:

Confidence level: _____ % Limitations acknowledged:

Critical Decision: Endpoint Isolation

SentinelAI recommends: Full isolation of 47 manufacturing workstations

Business impact: _____

Risk if delayed: _____

My recommendation: [] Full isolation [] Partial [] Monitor only

Rationale:**Phase 2: Analysis and Scoping (15 minutes)****Attack Timeline Construction**

Time	Event	Source	Significance
<hr/>			

Attack Chain Analysis**Initial Access:**

Execution:

Persistence:

Lateral Movement:

Collection/Exfiltration:

Scope Assessment

Patient Zero: _____

Attack Vector: _____

Systems Compromised: _____

Data at Risk: _____

Attribution Confidence: [] High [] Medium [] Low

Likely Threat Actor: _____

Phase 3: Response Execution (15 minutes)**Critical Decisions Matrix**

Decision	Options	AI Input	Business Impact	Our Choice	Rationale
Endpoint Isolation	Full/Partial/None				
Network Segmentation	Activate/Monitor				
Credential Reset	Immedi- ate/Scheduled				
Law Enforcement	Notify/Wait				
Executive Escalation	Now/After containment				

Complication Management

Complication #1:

- Event: _____
- Impact on plan: _____
- Adaptation: _____

Complication #2:

- Event: _____
- Impact on plan: _____
- Adaptation: _____

Phase 4: Communications (10 minutes)

Executive Flash Report

TO: CEO, CISO **FROM:** SOC Team **RE:** Security Incident - CRITICAL

Summary:

Current Status:

Business Impact:

Immediate Actions Taken:

Next Steps:

Operations Notification Draft

TO: Manufacturing VP **RE:** System Availability

Phase 5: After-Action Review

AI Partnership Evaluation

Where SentinelAI excelled:

Where human judgment was essential:

Decisions where AI and humans disagreed:

How we resolved disagreements:

Individual Role Reflection**My contribution to team response:**

Skills I used from my Work Role:

What I would do differently:

Career Connection**This simulation relates to these NICE Framework Work Roles:**

Required certifications for these careers:

What interested me most about this work:

Questions I have about SOC careers:
